

The Club Health Conference 2010

The 6th [Club Health Conference](#) will take place in Zurich from 7 to 9 June 2010.

The focus of the conference lies on preventative and harm reducing measures which make nightlife safer and more attractive as well as promoting partygoers' health.

The Club Health Conference addresses national and international experts from the harm reduction, prevention and health promotion domains and provides a unique opportunity to exchange the latest scientific knowledge, political efforts, project proposals and experiences.

DC&D partners from the Safer Nightlife platform will take part in the Conference to present their projects.
