

The EAHC's workshop on best practices

On February 25-26, 2010 in Luxemburg, a workshop on "Best practice examples on Addiction Prevention" was organized by the [European Agency for Health and Consumers](#) in partnership with the [EMCDDA](#).

25 projects on drugs, alcohol and tobacco co-funded by the European Commission took part in the workshop. DC&D was represented by Roxana Calfa and Thierry Charlois.

The key aim of the workshop was to reach a common statement on the definition of good practice, by comparing the definitions or methods used by the projects addressing tobacco, alcohol and illicit drug addiction, and exchange expertise between the addiction organisations at Member State level.
